## GENERAL INFORMATION

The College Counseling project is a website that allows college-seeking students to enter their scholastic information and receive personalized recommendations on the best colleges for them to attend. It is an environment that allows them to track the college admissions process. Mentors can also view student information and provide assistance where appropriate.

The website is intended to be used by individuals. The end goal is to be a social hub where mentors connect with students and receive rewards based on student achievement.

The College Counseling main components are:

Data Input, Communication Tools, College Recommendation System, Game-Based Social Networking

### ***Purpose***

This document explains the functional flow of the system.

### ***Scope***

The scope of this document is to explain in detail on all the use cases and business process flow supported in Admssns application.

### ***Objectives***

Main objective of this document is to make the reader understand the business process flow of Admssns Application.

## USE CASE NAME DETAILS

Use Case ID	Use case name	Primary Actor

## USE CASE 1: LOGIN

Use Case Name	Login	Use Case Type	Business Flow
Use case ID	UC_Admsns_001	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors			

### Description

Registered user logs in to the application using his/her email id and password

### Assumption

User has to be registered in the application.

### Primary Flow:

**Step 1:** User enter the 'Email id' and 'Password' and clicks on the 'Login' button.

**Step 2:** If the 'Email id' and 'Password' are valid, the user will be redirected to the 'ME' page with a message "You have logged in successfully!"

**Step 3:** If the 'Email id' or 'Password' are invalid, a message stating "There was a problem with your email address and/or password. Please try again" is displayed.

### End State

User was authenticated and logged into the application successfully

## USE CASE 2: LOGIN SOCIAL NETWORK(FB)

Use Case Name	Login_social-network(fb)	Use Case Type	Business Flow
Use case ID	UC_Admsns_002	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors			

### Description

User login into the application using his/her face-book account (email & password).

### Assumption

User needs Facebook account

### **Primary Flow:**

**Step 1:** User clicks on the the 'Login with facebook' button on the 'login home' page.

**Step 2:** If the user hasn't logged-in to facebook, the page gets redirected to the 'facebook's login' page. Otherwise he/she login to the application successfully

**Step 3:** When the user is not logged into facebook, he/she has to login to facebook entering the 'Email id' and 'Password'.

**Step 4:** Authenticated user will be redirected to the Admssns 'ME' page

### **End State**

User was successfully authenticated using his/her facebook account and logged into the application.

## **USE CASE 3: SIGNUP**

Use Case Name	Signup	Use Case Type	Business Flow
Use case ID	UC_Admsns_003	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

Unregistered User clicks on the signup link to register himself into the application.

### **Assumption**

Unregistered user creates an account

### **Primary Flow:**

**Step 1:** When new user clicks the 'Signup' link, the application navigates to 'Create Account' page.

**Step 2:** User then enters the required fields(first name, last name, email, password) and clicks the 'Join now' button.

**Step 3:** If the user successfully sign up, the application will be redirected to 'home' page, with a message stating "Thanks for creating your account! An email with your account information has been sent to you at: <email address>".

**Step 4:** If the fields are invalid, a message stating "Oops! There was a problem getting you signed up. Please try again" with the error message is displayed.

### **End State**

New user becomes a registered user.

## **USE CASE 4: SIGN-UP\_SOCIAL-NETWORK**

Use Case Name	Sign-up_social-network	Use Case Type	Business Flow
Use case ID	UC_Admsns_004	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User registers himself into the application using facebook connect.

### **Assumption**

Unregistered user creates an account using his facebook details.

### **Primary Flow:**

**Step 1:** When the user clicks on 'Sign up' link, the application navigates to a page with two option facebook connect and email signup

**Step 2:** Then user clicks on the 'Connect with facebook' button to authenticate his identity and share his personal infos like name, city, profile picture, gender, list of friends, etc.

**Step 3:** If the user successfully signup, the application will redirect to his/her 'home' page, with a message stating "Thanks for creating your account! An email with your account information has been sent to you at: <email address>".

**Step 4:** If the fields are invalid, a message stating "Oops! There was a problem getting you signed up. Please try again" with the error message is displayed.

### **End State**

New user successfully becomes a registered user.

## **USE CASE 5: LOST PASSWORD & FORGOT PASSWORD**

Use Case Name	Lost-password_forgot-	Use Case Type	Business Flow
---------------	-----------------------	---------------	---------------

	<b>password</b>		
<b>Use case ID</b>	UC_Admsns_005	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User requests for change of password by providing his/her authentic email id.

### **Assumption**

User has to be registered in the application already

### **Primary Flow:**

**Step 1:** Registered users who has lost his/her password clicks on the 'forgot' link

**Step 2:** The application navigates to another page that requests for user to enter his authentic email id

**Step 3:** If the email id exists in the database, the application sends a private url to the users email

**Step 4:** User then clicks on the private url that takes him to the application where he/she can change his password by entering the new one twice (password and repeat password fields)

**Step 5:** If the password change is successful the user gets a success message "Your password has been reset" and redirects him/her to home page otherwise a error message is displayed to the user "Oops Something went wrong! Your password was not saved"

### **End State**

Password was reset successfully.

## **USE CASE 6: GET-STARTED**

<b>Use Case Name</b>	<b>Get-started</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_006	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User successfully got redirected to the application page.

### **Assumption**

User has to be logged in

### **Primary Flow:**

**Step 1:** By default user is considered as student. Clicking 'Get started' link.

**Step 2:** User will be treated as student and redirected to the application page of student, where he/she can fill the details.

### **Alternate Flow**

**Step 1:** Clicking on 'I am a mentor'

**Step 2:** User will be treated as mentor and redirected to the application page of mentor, where he/she can fill the details.

### **End State**

User successfully redirected to their respective application page.

## **USE CASE 7: DASHBOARD\_LIST-USER-EARNED-BADGES**

Use Case Name	Dashboard_List-user-earned-badges	Use Case Type	Business Flow
Use case ID	UC_Admsns_007	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can view the list of earned badges with number of total count.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** User can view the most recent earned badges icon in the dashboard page.

**Step 2:** Overall earned badges count is displayed on the title.

**Step 3:** By Clicking on the "All" link, it redirects the user to 'achievement badges' page.

### ***End State***

User successfully viewed the list of earned badges with the total count.

## **USE CASE 8: DASHBOARD\_LIST-USER-SCHOOLS**

Use Case Name	Dashboard_List-user-schools	Use Case Type	Business Flow
Use case ID	UC_Admsns_008	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User can view the list of his/her favorite school with number of total count.

### ***Assumption***

Logged user navigated to the dashboard page.

### ***Primary Flow:***

**Step 1:** User can view the most recent favorited school with the school name and location details.

**Step 2:** Number of favorite school count is displayed on the title.

**Step 3:** By clicking on the "All" link, it redirects the user to 'School' page.

### ***End State***

User successfully viewed the list of his/her favorite school with name and location.

## **USE CASE 9: DASHBOARD\_LIST-USER-CONNECTIONS**

Use Case Name	Dashboard_List-user-connections	Use Case Type	Business Flow
Use case ID	UC_Admsns_009	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User can view the list of his/her connections.

### ***Assumption***

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** User can view the most recent connections in the user network with profile picture and name.

**Step 2:** Total Number of connection in the user network is displayed on the title.

**Step 3:** By clicking on the "All" link, it redirects the user to 'Network' page.

### **End State**

User successfully viewed the list of his/her connections with name and profile picture.

## **USE CASE 10: DASHBOARD\_BASIC-INFOS**

Use Case Name	Dashboard_basic-infos	Use Case Type	Business Flow
Use case ID	UC_Admsns_010	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can view his/her basic profile information.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** User views his/her basic profile information such as name, state, count of connection request(pending),earned badges, schools and connection are listed.

### **End State**

User successfully viewed the basic profile information in the dashboard.

## **USE CASE 11: DASHBOARD\_STUDENT-APPLICATION-STATUS**

Use Case Name	Dashboard_student-application-status	Use Case Type	Business Flow
Use case ID	UC_Admsns_011	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can view the application status.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** Student views his/her application completion and strength percentage in graphical view.

**Step 2:** On Clicking the 'Application Completion', student will be redirected to the 'My Application page'.

### **Alternate Flow**

**Step 1:** Mentor can view the list of student application with their name, profile picture, application completion and strength percentage.

**Step 2:** On Clicking on the particular student details, mentor will be redirected to the student application page, where he/she can rate the application.

### **End State**

User viewed the application status of his/her student successfully.

## **USE CASE 12: DASHBOARD\_VIEW-ACTIVITY**

Use Case Name	Dashboard_view-activity	Use Case Type	Business Flow
Use case ID	UC_Admsns_012	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can view list of activity in their network.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** User views the list of his/her activities with the name, profile picture, description, time of action performed and number of comments to it.

**Step 2:** Clicking on the '+' icon, user will be redirected to the 'Myactivity' page.

### **End State**

User viewed the list of his/her activities.

## **USE CASE 13: DASHBOARD\_VIEW-MESSAGE**

Use Case Name	Dashboard_view-message	Use Case Type	Business Flow
Use case ID	UC_Admsns_013	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can view a list of messages that he/she has received from their connections.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** User views list of messages with the name,profile picture, description, time of action performed and number of comments to it.

**Step 2:** Clicking on the '+' icon, user will be redirected to the messages page.

### **End State**

User viewed the list of messages that he/she has received.

## **USE CASE 14: DASHBOARD EDIT-APPLICATION-FORM**

Use Case Name	Dashboard_edit-application-form	Use Case Type	Business Flow
Use case ID	UC_Admsns_014	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

User can edit his/her personal, high school and college details.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** By clicking on 'Edit' link, User edits his/her personal,high school and college details by providing the valid inputs.

**Step 2:** Then the percentage of the application incomplete will be modified based on the information provided by the user.

### **End State**

User successfully updated his/her personal, high school and college details.

## **USE CASE 15: DASHBOARD VIEW-APPLICATION-FORM**

Use Case Name	Dashboard_view-application-form	Use Case Type	Business Flow
Use case ID	UC_Admssns_015	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

User can view the personal, high school and college details.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** By clicking on 'View' link, User can view all the information of personal, high school and college with non editable format.

### **End State**

User successfully viewed his/her personal, high school and college details.

## **USE CASE 16: DASHBOARD COMMENT-ON-USER-PROFILE**

Use Case Name	Dashboard_comment-on-user-profile	Use Case Type	Business Flow
Use case ID	UC_Admssns_016	Priority	Critical
Primary Actors	Mentor		

<b>Other Actors</b>	NA
---------------------	----

### **Description**

User comments on student application.

### **Assumption**

Logged user navigated to the dashboard page.

### **Primary Flow:**

**Step 1:** By clicking on the '+' icon, user is provided with option to enter his/her comments.

**Step 2:** Comment can be entered for each attributes separately.

### **End State**

User successfully posted a comment on the student profile.

## **USE CASE 17: MY-ACTIVITY VIEW**

<b>Use Case Name</b>	<b>My-activity-view</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_017	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User views his/her list of activities

### **Assumption**

Logged user navigated to my activity page.

### **Primary Flow:**

**Step 1:** In the 'My Activity page', user can view the list of activities with the description, time and number of comments for it.

**Step 2:** On clicking 'Load More' option, Application displays the more activities below in the same page.

### **End State**

User successfully viewed all the activities.

## USE CASE 18: MY-ACTIVITY COMMENT

Use Case Name	My-activity-comment	Use Case Type	Business Flow
Use case ID	UC_Admsns_018	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User comments for his/her list of activities

### **Assumption**

Logged user navigated to my activity page.

### **Primary Flow:**

**Step 1:** In the 'my activity page', when user clicks on any particular activity from the list, the comments will be displayed in the pane that slide out to the right.

### **End State**

User successfully commented for his/her activities.

## USE CASE 19: BADGES

Use Case Name	Badges	Use Case Type	Business Flow
Use case ID	UC_Admsns_019	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User views the list of badges in the application.

### **Assumption**

Logged user navigated to the Badges page.

### **Primary Flow:**

**Step 1:** In the 'Achievement Badges page', user can view all the Badges current available in the application.

**Step 2:** Unearned badges are in gray color, where as earned badges are highlighted in black color.

**Step 3:** By clicking on badges, the image and the description about the badges will be displayed in the pane that slide out to the right.

### ***End State***

User successfully viewed the earned and unearned badges.

## **USE CASE 20: MESSAGE-VIEW**

Use Case Name	Message-View	Use Case Type	Business Flow
Use case ID	UC_Admsns_020	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User views list of messages with sender name, sender profile picture, subject and comments count.

### ***Assumption***

Logged user navigated to the Message page.

### ***Primary Flow:***

**Step 1:** In the 'Message page', user can view the list of message with the sender name, sender profile picture, subject, date, month and comments count.

**Step 2:** Click on the particular message, will display related comments on the pane that slides out to the right.

**Step 3:** On clicking 'Load More' option, Application displays the more messages below in the same page.

### ***End State***

User has successfully checked his/her messages and comments.

## USE CASE 21: MESSAGE-NEW

Use Case Name	Message-New	Use Case Type	Business Flow
Use case ID	UC_Admsns_021	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can compose a new message and send it to other users in the network.

### **Assumption**

Logged user navigated to the Message page.

### **Primary Flow:**

**Step 1:** User clicks on the "New message", then the light box appears.

**Step 2:** Upon entering the valid input in the light box form, message is sent to the user by clicking 'Send' button.

### **End State**

User can compose and send the message to the other users in the network.

## USE CASE 22: MESSAGE-REPLY

Use Case Name	Message-Reply	Use Case Type	Business Flow
Use case ID	UC_Admsns_022	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User reply to the messages.

### **Assumption**

Logged user navigated to the Message page.

### **Primary Flow:**

**Step 1:** Clicking on the particular message, will display related comments on the pane that slides out to the right side with 'send message' for reply.

**Step 2:** User enters the reply for the message in the text box below and hits enter to post it

**Step 3:** If the message is sent successfully the user gets a notification "Message sent successfully" or otherwise error message "Oops something went wrong, your message was not sent" will be shown

### ***End State***

User successfully replied to the message.

## **USE CASE 23: APPLICATION STUDENT-PERSONAL-BASIC**

Use Case Name	Application_student-personal-basic	Use Case Type	Business Flow
Use case ID	UC_Admsns_023	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### ***Description***

Logged in students will navigate to this page to enter his/her personal details

### ***Assumption***

Logged user navigated to the application page.

### ***Primary Flow:***

**Step 1:** The student navigates to this page by clicking on the 'Get Started' button on his home page

**Step 2:** if user logged in using facebook then first and last name gets auto filled from facebook

**Step 3:** Otherwise the student will enter his first and last name along with the other details like birthday, gender, phone number, address and email

**Step 4:** He/she can also connect this application with his/her facebook or google or twitter account

**Step 5:** Once the student finishes filling out this part of the application his application complete percentage will go up by 7%

### ***End State***

Student enters all his basic personal infos

## **USE CASE 24: APPLICATION STUDENT-PERSONAL-FAMILY**

Use Case Name	Application_Student-personal-family	Use Case Type	Business Flow
Use case ID	UC_Admsns_024	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

Logged in students will navigate to this section of the page to enter his/her family details by clicking on the 'family' link after entering his basic personal details

### ***Assumption***

Logged in user navigated to the application page.

### ***Primary Flow:***

**Step 1:** The student navigates to this section of the page by clicking on the 'family' link

**Step 2:** The Me section is hidden and the family section expands displaying all the fields within

**Step 3:** Student enters his family informations (dad/mom/guardian's/sibling's name, address)

**Step 4:** Once the student finishes filling out this part of the application his application complete percentage will go up by 3%

### ***End State***

Student entered all his family informations (dad/mom/guardian's/sibling's infos)

## USE CASE 25: APPLICATION STUDENT-PERSONAL-DEMOGRAPHICS

Use Case Name	Application_Student-personal-demographics	Use Case Type	Business Flow
Use case ID	UC_Admsns_025	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

Logged in students will navigate to this section of the page to enter his/her demographic details by clicking on the 'Demographics' link after entering his family details

### Assumption

Logged user navigated to 'application' page.

### Primary Flow:

**Step 1:** The student navigates to this section of the page by clicking on the 'Demographics' link

**Step 2:** Family section is hidden and the demographic section expands displaying all the fields within.

**Step 3:** Then he enters his demographic details like birth place, citizenship, religion,race, language and etc.

**Step 4:** Once the student finishes filling out this part of the application his application complete percentage will go up by 5%

### End State

Student entered all his demographic details.

## USE CASE 26: APPLICATION STUDENT-HIGH-SCHOOL-ACADEMICS

Use Case Name	Application_Student-high-school-academics	Use Case Type	Business Flow
Use case ID	UC_Admsns_026	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Logged in students will navigate to this page to enter his/her high school academics details by clicking on the 'Next' link after entering his demographics details in the previous page.

### **Assumption**

Logged user navigated to 'application' page.

### **Primary Flow:**

**Step 1:** The student navigates to this page by clicking the 'Next' button in the previous page after entering his demographic details

**Step 2:** Then he/she enters his/her high school academics information like school name, courses, honors, discipline and etc.

**Step 3:** Once the student finishes filling out this part of the application his application complete percentage will go up by 15%

### **End State**

Student entered all his high school academic information.

## **USE CASE 27: APPLICATION STUDENT-HIGH-SCHOOL-TESTS**

Use Case Name	Application_Student-high-school-tests	Use Case Type	Business Flow
Use case ID	UC_Admsns_027	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Logged in students will navigate to this section of the page to enter his/her high school test details by clicking on the 'Tests' link after entering his academics details.

### **Assumption**

Logged user navigated to 'application' page.

### **Primary Flow:**

**Step 1:** The student navigates to this section of the page by clicking on the 'Tests' link after entering his academic details

**Step 2:** He/she then enters all the details about the test that he/she has taken during high school like ACT, SAT, TOEFL and so on.

**Step 3:** Once the student finishes filling out this part of the application his application complete percentage will go up by 10%

### **End State**

Student entered all the details about the tests that he/she has taken during high school

## **USE CASE 28: APPLICATION STUDENT-HIGH-SCHOOL-ACTIVITIES**

Use Case Name	Application_Student-high-school-activities	Use Case Type	Business Flow
Use case ID	UC_Admsns_028	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Logged in students will navigate to this section of the page to enter his/her high school activities details by clicking on the 'Activities' link after entering his tests details.

### **Assumption**

Logged user navigated to 'application' page.

### **Primary Flow:**

**Step 1:** The student navigates to this section of the page by clicking on the 'Activities' link after entering his/her test details

**Step 2:** Then he/she enters all the high school activities and clicks on 'Next' button

**Step 3:** Once the student finishes filling out this part of the application his application complete percentage will go up by 10%

### ***End State***

Student entered all the details about his/her high school activities

## **USE CASE 29: APPLICATION STUDENT-COLLEGE-PREFERENCES**

Use Case Name	Application_Student-college-preferences	Use Case Type	Business Flow
Use case ID	UC_Admsns_029	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### ***Description***

Logged in students will navigate to this page to enter his/her college preferences by clicking on the 'Next' button on the previous page after entering his high school activities

### ***Assumption***

Logged user navigated to 'application' page.

### ***Primary Flow:***

**Step 1:** The student navigates to this page by clicking on the 'Next' button on the previous page

**Step 2:** He/she enters his college preferences like Type, Money, Admissions, Demographics, Cool stuff, and Hook

**Step 3:** Once the student finishes filling out this part of the application his application complete percentage will go up by 25%

### ***End State***

Student enters all the details regarding his college preferences

## **USE CASE 30: APPLICATION STUDENT-COLLEGE-INTERESTS**

Use Case Name	Application_Student-college-interests	Use Case Type	Business Flow
Use case ID	UC_Admsns_030	Priority	Critical
Primary Actors	Student		

<b>Other Actors</b>	NA
---------------------	----

### **Description**

Logged in students will navigate to this section of the page to enter his/her interests by clicking on the 'Interests' link after entering his college preferences.

### **Assumption**

Logged in student enters details about his/her interests

### **Primary Flow:**

**Step 1:** The student navigates to this section of the page by clicking on the 'Interests' link

**Step 2:** He/she then types in the interests, data will auto fill as he types

**Step 3:** Student can also import his/her interests from facebook by clicking on the 'Connect with Facebook' button

**Step 4:** Once the student finishes filling out this part of the application his application complete percentage will go up by 10%

### **End State**

Student entered his interest informations successfully

## **USE CASE 31: APPLICATION STUDENT-COLLEGE-DOCUMENTS**

<b>Use Case Name</b>	<b>Application_Student-college-documents</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_031	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student		
<b>Other Actors</b>	NA		

### **Description**

Logged in students will navigate to this section of the page to share or upload documents by clicking on the 'Documents' link after entering his/her college interests

### **Assumption**

Logged in student can connect their google accounts and then share or upload documents

### **Primary Flow:**

**Step 1:** The student navigates to this section of the page by clicking on the 'Documents' link

**Step 2:** He/she then connects his/her google account by clicking on the 'Google' button and authenticating

**Step 3:** Student can share and upload documents via google api

**Step 4:** Once the student finishes filling out this part of the application his application complete percentage will go up by 5%

**Step 5:** Then the student clicks on the 'Finish' Button after filling all the details in his/her application.

### **End State**

Student connected his/her google account to share and upload documents

## **USE CASE 32: APPLICATION STUDENT-PERSONAL-CONNECT-SOCIAL-ACCOUNTS**

Use Case Name	Application_Student-personal-connect-social-accounts	Use Case Type	Business Flow
Use case ID	UC_Admsns_032	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Logged in students will navigate to this section of the page to connect his/her facebook or twitter or google account after entering his/her basic personal infos

### **Assumption**

Logged in student can connect their google or facebook or twitter account with the application.

### **Primary Flow:**

**Step 1:** The student navigates to this part of the page after entering his basic personal infos

**Step 2:** Student can click on twitter or facebook or google button to connect his twitter or facebook or google account with the application

**Step 3:** Connecting with these social networking sites lets him/her share their informations with friends

### **End State**

Student connected his/her facebook or google or twitter account to share their informations on the social networking sites

## **USE CASE 33: APPLICATION MENTOR-PERSONAL-CONNECT-SOCIAL-ACCOUNTS**

Use Case Name	Application_Mentor-personal-connect-social-accounts	Use Case Type	Business Flow
Use case ID	UC_Admsns_033	Priority	Critical
Primary Actors	Mentor		
Other Actors	NA		

### **Description**

Logged in mentors will navigate to this section of the page to connect his/her facebook or twitter or google account after entering his/her basic personal infos

### **Assumption**

Logged in Mentors can connect their google or facebook or twitter account with the application

### **Primary Flow:**

**Step 1:** The mentor navigates to this part of the page after entering his basic personal infos

**Step 2:** He/She can click on twitter or facebook or google button to connect his twitter or facebook or google account with the application

**Step 3:** Connecting with these social networking sites lets them share their informations with friends

### **End State**

Mentor connects his/her facebook or google or twitter account to share their informations on the social networking sites

## **USE CASE 34: APPLICATION STUDENT-COLLEGE-INTERESTS-IMPORT-FROM-FB**

Use Case Name	Application_Student-college-interests-from-fb	Use Case Type	Business Flow
Use case ID	UC_Admsns_034	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Logged in students will navigate to this section of the page to connect his/her facebook account and then import interests

### **Assumption**

Registered students can import their interests from facebook to this application

### **Primary Flow:**

**Step 1:** Student navigates to this part of the page and clicks on the "Connect with Facebook" button under the activities heading

**Step 2:** He/she then authenticates his/her facebook book account and their interests is imported to this application

### ***End State***

Student imported his/her interests from the facebook

## **USE CASE 35: MENTOR-PERSONAL-BASIC**

Use Case Name	Mentor-personal-basic	Use Case Type	Business Flow
Use case ID	UC_Admsns_035	Priority	Critical
Primary Actors	Mentor		
Other Actors	NA		

### ***Description***

Logged in mentor will navigate to this section of the page to enter his/her basic personal informations like name, gender, address and etc.

### ***Assumption***

Logged in mentors will enter his/her personal basic informations

### ***Primary Flow:***

**Step 1:** The mentor navigates to this page by clicking on the 'I'm a mentor' link on his home page

**Step 2:** if user logged in using facebook then first and last name gets autofilled from facebook

**Step 3:** Otherwise user will enter his first and last name along with the other details like birthday, gender, phone number, address, email and etc.

**Step 4:** Once the mentor finishes filling out this part of the application his application complete percentage will go up by 10%

### ***End State***

Mentor enters his/her personal basic informations

## **USE CASE 36: MENTOR-PERSONAL-DEMOGRAPHIC**

Use Case Name	Mentor-personal-demographic	Use Case Type	Business Flow
---------------	-----------------------------	---------------	---------------

<b>Use case ID</b>	UC_Admsns_036	<b>Priority</b>	Critical
<b>Primary Actors</b>	Mentor		
<b>Other Actors</b>	NA		

### **Description**

Logged in mentor will navigate to this section of the page to enter his/her demographic informations

### **Assumption**

Logged in mentors will enter demographic informations.

### **Primary Flow:**

**Step 1:** The mentor navigates to this part of the page by clicking on the 'Demographics' link after entering his/her basic personal details

**Step 2:** He/she then enters the demographic details like birth place, citizenship, race, religion, languages and etc. and clicks on the 'Next' button

**Step 3:** Once the mentor finishes filling out this part of the application his application complete percentage will go up by 10%

### **End State**

Mentor entered his/her personal demographic details

## **USE CASE 37: MENTOR-SCHOOL-INFOS**

<b>Use Case Name</b>	<b>Mentor-school-infos</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_037	<b>Priority</b>	Critical
<b>Primary Actors</b>	Mentor		
<b>Other Actors</b>	NA		

### **Description**

Logged in mentor will navigate to this section of the page to enter his/her school informations after clicking 'Next' button on the previous page

### **Assumption**

Logged in mentors will enter his/her school informations.

### ***Primary Flow:***

**Step 1:** Mentor navigates to this part of the page by clicking on the "Next" button on the previous page

**Step 2:** He/She then enters his school and career informations

**Step 3:** Once the mentor finishes filling out this part of the application his application complete percentage will go up by 25%

**Step 4:** Mentor clicks on the 'Next' button after filling out all the details in the form.

### ***End State***

Mentor entered his/her school informations successfully.

## **USE CASE 38: MENTORING-SPECIALTIES**

Use Case Name	Mentoring-specialities	Use Case Type	Business Flow
Use case ID	UC_Admsns_038	Priority	Critical
Primary Actors	Mentor		
Other Actors	NA		

### ***Description***

Logged in mentor will navigate to this section of the page to enter his/her mentoring informations

### ***Assumption***

Logged in mentor will enter his/her mentoring specialties informations.

### ***Primary Flow:***

**Step 1:** Mentor navigates to this part of the page by clicking on the "Next" button on the previous page after entering school information

**Step 2:** He/she enters their mentoring specialties like interests, type, school size and etc.

**Step 3:** After completing this part his or her application completion percentage goes up by 40%

### ***End State***

Mentor entered his or her mentoring specialties

## **USE CASE 39: MENTOR-PROFESSIONAL-BACKGROUND**

Use Case Name	Mentor-professional-background	Use Case Type	Business Flow
Use case ID	UC_Admsns_039	Priority	Critical
Primary Actors	Mentor		
Other Actors	NA		

### ***Description***

Logged in mentor will navigate to this section of the page to enter his/her professional background informations.

### ***Assumption***

Registered mentors will enter his/her professional background informations.

### ***Primary Flow:***

**Step 1:** Mentor navigates to this part of the page by clicking on the 'Background' link after entering his/her mentoring specialties

**Step 2:** He/She then enters details about his/her professional background and clicks on the 'Done' button.

**Step 3:** After completing this part his or her application completion percentage goes up by 40%

### ***End State***

Mentor entered his/her professional background informations

## **USE CASE 40: NETWORK HOME-REQUESTS**

Use Case Name	Network_Home-requests	Use Case Type	Business Flow
Use case ID	UC_admsns_040	Priority	Critical

<b>Primary Actors</b>	Student/Mentor
<b>Other Actors</b>	NA

### **Description**

User view the number of connection request received and respond to the same.

### **Assumption**

Logged user navigated to the 'Network Home' page.

### **Primary Flow:**

**Step 1:** If the user has the request for connection, then displays the connection request with the details of requester picture, name and common connection.

**Step 2:** User adds the requester to his/her connection by clicking on the "Accept" button or ignore the request by clicking on the "Ignore" button.

### **End State**

User successfully responded to the request.

## **USE CASE 41: NETWORK HOME-CONNECT**

<b>Use Case Name</b>	<b>Network_Home-connect</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_admsns_041	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User invite the friends through the social network.

### **Assumption**

Logged user navigated to the 'Connect with Friends' page, where the user can invite the friends to their network.

### **Primary Flow:**

**Step 1:** When user clicks on the 'face-book/twitter/google/yahoo', then they will be redirect to the log-in page of the respective social network site.

**Step 2:** After successfully logged in to the social network, it displays the detail of the friends(Profile picture, name, location, connect option), who are already registered in the admsns application.

**Step 3:** Then by click on the 'Connect' option, User can send the invitation to friends to join

the network.

### ***Alternate Flow***

**Step 1:** When user clicks on the 'facebook/twitter/google/yahoo', then they will be redirect to the login page of the respective site.

**Step 2:** Authentication process is done by using the 'email id' and 'password'.

**Step 3:** If the user doesn't have the friends in the social network, who are all using the admsns application, then the message is display "No match found"

### ***End State***

User successfully invited the friends to their network.

## **USE CASE 42: NETWORK LIST-ACTIVITY-COMMENT**

Use Case Name	Network_List-activity-comment	Use Case Type	Business Flow
Use case ID	UC_admsns_042	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User view the list of activities in the network and comment to it.

### ***Assumption***

Logged in user navigates to the 'Network-home' page.

### ***Primary Flow:***

**Step 1:** User views the list of activities in the network with name, profile picture, description, time of action performed and count of the comments.

**Step 2:** User can sort the list of activity in the order of most recent activity.

**Step 3:** By clicking on the '+' icon/All link, user will be redirect to the network activity page, where the user can view the all the network activity and comment to the same.

### ***End State***

User successfully views the activities and comments in the network.

## USE CASE 43: NETWORK WHO-I-CONNECT

Use Case Name	Network_Who-i-connect	Use Case Type	Business Flow
Use case ID	UC_admsn_043	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### Description

User view the top three connection based on the profile match of the interest with others in the admsns application.

### Assumption

Logged in user navigates to the 'Network- home' page.

### Primary Flow:

**Step 1:** User views the top three connections with their name, profile picture, connect option and number of common interest with them on the top left corner.

### End State

User successfully viewed the activities and comments of their network.

## USE CASE 44: NETWORK\_FIND-MENTOR

Use Case Name	Network_find-mentor	Use Case Type	Business Flow
Use case ID	UC_admsns_044	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

User views and find the list of the mentor.

### **Assumption**

Logged in user navigates to the 'Network-home' page.

### **Primary Flow:**

**Step 1:** User views the list of mentor on the 'middle left corner'.

**Step 2:** When user clicks on 'Find a Mentor' button, they will be redirected to the 'Who to Connect With' page. Where the user can view all the available mentor and student.

### **End State**

User successfully find and viewed the mentor.

## **USE CASE 45: NETWORK CONNECT-WITH-FRIENDS-SOCIALNETWORK**

Use Case Name	Network_Connect-with-friends-socialnetwork	Use Case Type	Business Flow
Use case ID	UC_Admsns_045	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User invite the friends via social network(fb).

### **Assumption**

Logged in user navigates to the 'Network-Connect with friends' page.

### **Primary Flow:**

**Step 1:** When user clicks on 'through Facebook', then the system redirect the user to the login page of the facebook.

**Step 2:** After successfully logged in, it displays details of the friends list with name and profile picture in the facebook layout.

**Step 3:** User can invite maximum of 20 friends at time to their connection.

### **End State**

User successfully invited the friend to join their network through facebook.

## USE CASE 46: NETWORK CONNECT-WITH-FRIEND-EMAIL

Use Case Name	Network_Connect-with-friend-email	Use Case Type	Business Flow
Use case ID	UC_Admsns_046	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### Description

User invite the friends via email.

### Assumption

Logged in user navigates to the 'Network-Connect with friends' page.

### Primary Flow:

**Step 1:** When user clicks on the 'through email' link, then user will be redirect to the 'Invite your friends-Email' page.

**Step 2:** In the 'Invite your friends-Email' page, user can view sample email text and text box to enter the recipient email id.

**Step 3:** Invitation is send to the recipient email id by clicking on the 'Send' link.

### Alternate Flow

### End State

User can successfully invited the friends through email to their network.

## USE CASE 47: NETWORK ACTIVITY-VIEW

Use Case Name	Network activity-view	Use Case Type	Business Flow
Use case ID	UC_Admsns_047	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User views list of network activities

### **Assumption**

Logged user navigated to 'Network Activity' page.

### **Primary Flow:**

**Step 1:** In the 'Network Activity page', user can view the list of activities with the description, time and number of comments for it.

**Step 2:** On clicking 'Load More' option, Application displays the more activities below in the same page.

### **End State**

User successfully viewed all the activities of the network.

## **USE CASE 48: NETWORK ACTIVITY-COMMENT**

Use Case Name	Network activity	Use Case Type	Business Flow
Use case ID	UC_Admsns_048	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can comments to list of activities in the network.

### **Assumption**

Logged user navigated to 'Network Activity' page.

### **Primary Flow:**

**Step 1:** In the 'Network activity page', when user clicks on any particular activity from the list, the comments will be displayed in the pane that slide out to the right.

**Step 2:** User enters his/her comment in the text box below the comments on the right pane and then hits enter to post it.

### **End State**

User successfully commented for his/her activities.

## USE CASE 49: SCHOOL LIST

Use Case Name	School-list	Use Case Type	Business Flow
Use case ID	UC_Admsns_049	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

List of schools matching actor's preferences will be listed on the page with other data's like size, acceptance, tuition fee and etc.

### Assumption

List of schools matching actor's profile will be listed.

### Primary Flow:

**Step 1:** Student navigates to this page by clicking on the schools link

**Step 2:** List of schools matching the actor's preferences is displayed

**Step 3:** Under every school link, some of its insights would be displayed like size of school, tuition fee, acceptance % and etc.

**Step 4:** User clicks on the 'Load more' button to display few more schools

### End State

The student found some of the schools that matches his/her preferences

## USE CASE 50: SCHOOL USER-PERSONAL-INFO

Use Case Name	School_User-personal-info	Use Case Type	Business Flow
Use case ID	UC_Admsns_050	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

In the School search page, a quick view of the actors profile informations will be displayed alongside the schools list

### ***Assumption***

A quick view of the actors profile is displayed along side the school list page.

### ***Primary Flow:***

**Step 1:** Actor navigates to this part of the page to view some of his profile details

### ***End State***

Actor viewed few of his profile fields in the quick view

## **USE CASE 51: SCHOOL QUICK-VIEW**

Use Case Name	School_Quick-view	Use Case Type	Business Flow
Use case ID	UC_Admsns_051	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### ***Description***

Student will be able to edit few of his/her profile informations that is being displayed in the quick view and update his/her informations

### ***Assumption***

Student edits few of his/her profile fields in the quickview and updates his/her infos.

### ***Primary Flow:***

**Step 1:** Student while viewing some of his profile infos in the quick view clicks on the 'Edit' icon

**Step 2:** The quick view dynamically changes into a form where user can edit information

**Step 3:** The form gets saved automatically once the actor finishes editing

**Step 4:** User clicks on 'Go to my application' link and the application redirects to the Student application page

### ***End State***

The actor edited or updated some of his/her personal infos from the quick view

## USE CASE 52: SCHOOL SEARCH

Use Case Name	School_search	Use Case Type	Business Flow
Use case ID	UC_Admsns_052	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

User can enter the name of the school for which he is looking for to view some of the basic informations about the school

### Assumption

User enters school name to be searched.

### Primary Flow:

**Step 1:** User types out the name of the school he is looking for

**Step 2:** The list below the search box then gets update with the schools list matching the search string.

**Step 3:** The search results contains some of the basic information of the schools like the tuition fee, acceptance %, nos. of mentors and etc.

**Step 4:** User clicks on the 'Load more' button below to display more schools.

### End State

User viewed a list of schools matching his search string

## USE CASE 53: SCHOOL MAP-ALL-SCHOOL

Use Case Name	School_Map-all-school	Use Case Type	Business Flow
Use case ID	UC_Admsns_053	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### Description

User will view all the schools that are in the search list neatly marked on a google map with the corresponding Geo locations

### ***Assumption***

User views a google map marked with the geo locations of all the schools that are in the search list

### ***Primary Flow:***

**Step 1:** User clicks on the 'map it' link on the school search page

**Step 2:** A google map light box with all the schools listed in the search page neatly marked with their corresponding geo locations

### ***End State***

User viewed the geo locations of all the schools marked in google map

## **USE CASE 54: SCHOOL INDIVIDUAL-DETAILS**

Use Case Name	School_Individual-details	Use Case Type	Business Flow
Use case ID	UC_Admsns_054	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### ***Description***

User will able to view the detailed information of any school that he selects from the schools search page

### ***Assumption***

User views the detailed information of the particular school that he selected from the schools search page.

### ***Primary Flow:***

**Step 1:** User navigate to this page by clicking on any particular school name in the schools search page

**Step 2:** He/she then views the detailed information about the school like scores, admissions, money, people, run down, on campus and map.

### ***End State***

User viewed the complete information about the school that he selected

## USE CASE 55: SCHOOL SCORES-DETAILS

Use Case Name	School_Scores-details	Use Case Type	Business Flow
Use case ID	UC_Admsns_055	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Student can compare his/her exam scores with the scores required by the school

### **Assumption**

Logged in student views the scores that he/she has scored in exams like SAT, ACT and etc. comparing them with the scores required by the school

### **Primary Flow:**

**Step 1:** User navigates to this page by clicking on the school name in the school search page

**Step 2:** He/She then views the scores that he/she has taken in exams like SAT, ACT and etc.

**Step 3:** The scores required by the school is also displayed on the other side so that the actor can compare scores

### **End State**

Student viewed the scores that he has taken comparing it with the ones required by the school

## USE CASE 56: SCHOOL ADMISSION-DETAILS

Use Case Name	School_Admission-details	Use Case Type	Business Flow
Use case ID	UC_Admsns_056	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Student will be viewing some of the admission details about the school like admission deadlines, no. of students enrolled, no: of students getting out after graduation and etc.

### **Assumption**

Student views the admission details of that particular selected school.

### **Primary Flow:**

**Step 1:** Student navigates to this part of the page after viewing his score details

**Step 2:** He/She view the admission details for this particular school like admission deadlines, no: of students enrolled, no: of students getting out after graduation and etc.

**Step 3:** All these details are neatly show with small graphics

### **End State**

The student viewed the admission details for that selected school

## **USE CASE 57: SCHOOL MONEY-DETAILS**

Use Case Name	School_Money-details	Use Case Type	Business Flow
Use case ID	UC_Admsns_057	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### **Description**

Student will be viewing some of the money details about the school like tuition fee, financial-Aid provided, room & board etc.

### **Assumption**

Logged in student views the Money details for that particular selected school.

### **Primary Flow:**

**Step 1:** Student navigates to this part of the page after viewing admission details

**Step 2:** He/She views the finance details for this particular school like tuition fee, financial-Aid provided, room & board etc.

**Step 3:** All these details are neatly show with small graphics

### ***End State***

Student viewed the financial details for that selected school

## **USE CASE 58: SCHOOL PEOPLE-DETAILS**

Use Case Name	School_People-details	Use Case Type	Business Flow
Use case ID	UC_Admsns_058	Priority	Critical
Primary Actors	Student		
Other Actors	NA		

### ***Description***

Student will be viewing some of the people details about the school like nos. of guys and girls in that school, the type of students studying there.

### ***Assumption***

Student views the people details for that particular selected school.

### ***Primary Flow:***

**Step 1:** Student navigates to this part of the page after viewing the financial details of the selected school

**Step 2:** He/She views the people details for this particular school like nos. of guys and girls in that school, the type of students studying there and etc.

### ***End State***

The student viewed all the people details for that selected school

## **USE CASE 59: SCHOOL MAP-LOCATION**

Use Case Name	School_Map-location	Use Case Type	Business Flow
Use case ID	UC_Admsns_059	Priority	Critical
Primary Actors	Student		

<b>Other Actors</b>	NA
---------------------	----

### **Description**

School will be marked on google maps and displayed on the sidebar

### **Assumption**

Student views the school marked on google maps.

### **Primary Flow:**

**Step 1:** The student navigates to this part of the page to view the exact google map geo coordination for the selected school

**Step 2:** The school name is marked on the map by pulling the school address from the school database

### **End State**

The student viewed the exact geo coordination of the school marked on google maps

## **USE CASE 60: SCHOOL ADD-TO-MY-LISTS**

<b>Use Case Name</b>	<b>School_Add-to-my-list</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_060	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student		
<b>Other Actors</b>	NA		

### **Description**

Student can add any number of schools to his favorite list

### **Assumption**

Student adds schools to his favorite list.

### **Primary Flow:**

**Step 1:** Student clicks on the star icon near the school names to add it to his/her favorite list

**Step 2:** That particular school gets added to his/her favorite list and the icon changes to a gold color star

### ***End State***

Student added schools to his/her favorite list

## **USE CASE 61: SETTINGS PROFILE**

Use Case Name	Settings_Profile	Use Case Type	Business Flow
Use case ID	UC_admsns_061	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User successfully update his/her profile information.

### ***Assumption***

Logged user successfully logged in and navigated to the 'settings-profile' page.

### ***Primary Flow:***

**Step 1:** User can view/update the profile information such as name,email,location.

**Step 2:** Profile photo can be upload/updated here.

**Step 3:** User enters the valid inputs and clicks on 'Save Changes' button to update the changes.

**Step 4:** If the user enters the invalid inputs, then the error message is displayed.

**Step 5:** If the user check in the check box "Let others find me if they have my name or email address", then other user can find him by search option.

### ***End State***

User successfully updated his/her profile information.

## **USE CASE 62: SETTINGS PASSWORD**

<b>Use Case Name</b>	<b>Settings_Password</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_admsns_062	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User successfully update his/her password details.

### **Assumption**

Logged user navigated to the 'settings-password' page.

### **Primary Flow:**

**Step 1:** User can update the password, by entering the current password, new password and confirmation password.

**Step 2:** User enters the valid inputs and clicks on 'Save Changes' button to update the changes.

**Step 3:** If the user enters the invalid inputs, then the error message is displayed.

### **End State**

User successfully updated his/her password details.

## **USE CASE 63: SETTINGS ACCOUNTS CONNECT**

<b>Use Case Name</b>	<b>Settings_Accounts-connect</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_063	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User successfully update his/her accounts details.

### **Assumption**

Logged user navigated to the 'settings-accounts' page.

### **Primary Flow:**

**Step 1:** If the user as already connected social network (facebook,twitter,google) with admssns site.

**Step2:** On check-in the 'Automatically share new badges I earn on facebook'/'Automatically share new badges I earn on twitter'. User can automatically post the information of earned badges to the social network wall (facebook,twitter).

**Step 3:** User will receive the notification email, when the particular action is performed.

**Step 1:** If the user doesn't connected social network (facebook,twitter,google) with admssns site.

**Step2:** User can connect with social network (facebook/twitter). On clicking the 'Facebook/Twitter' button.

### ***End State***

User successfully updated his/her accounts details.

## **USE CASE 64: SETTINGS ACCOUNTS REMOVE**

Use Case Name	Settings_Accounts-remove	Use Case Type	Business Flow
Use case ID	UC_Admsns_064	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### ***Description***

User successfully update his/her accounts details.

### ***Assumption***

Logged user navigated to the 'settings-accounts' page.

### ***Primary Flow:***

**Step 1:** On clicking the 'Remove' link. User can disconnect the connection from social network(facebook/twitter/google).

### ***End State***

User successfully updated his/her accounts details.

## **USE CASE 65: SETTINGS NOTIFICATIONS**

<b>Use Case Name</b>	<b>Settings_Notifications</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_065	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### ***Description***

User successfully update his/her notification details.

### ***Assumption***

Logged user navigated to the 'settings-notification' page.

### ***Primary Flow:***

**Step 1:** When the user check-in the following notification, 'I receive a connection request or confirmation, I unlock a badge, I'm a sent message, Someone comments on my activity or replies to my comment'. Clicks on the 'Save Changes' button to update the changes.

**Step 2:** User will receive the notification email, when the particular action is performed.

### ***End State***

User successfully updated his/her notification details.

## **USE CASE 66: STATIC\_PAGES**

<b>Use Case Name</b>	<b>Static_pages</b>	<b>Use Case Type</b>	<b>Business Flow</b>
<b>Use case ID</b>	UC_Admsns_066	<b>Priority</b>	Critical
<b>Primary Actors</b>	Student/Mentor		
<b>Other Actors</b>	NA		

### **Description**

User can view all the static pages(Contact us, About us, Terms & Privacy and Help). It also contains facebook fan page and twitter icon.

### **Assumption**

User in the home page.

### **Primary Flow:**

**Step 1:** By clicking on the 'Contact us' link, user will be redirected to the contact us page.

**Step 2:** By clicking on the 'About us' link, user will be redirected to the about us page.

**Step 3:** By clicking on the 'Terms' link, user will be redirected to the Terms page.

**Step 4:** By clicking on the 'Privacy', user will be redirected to the privacy page.

**Step 5:** By clicking on the 'Help', user will be redirected to the help page.

**Step 6:** The page also contains facebook fan page and twitter icons, clicked on it will redirect the user to appropriate pages.

### **End State**

User successfully viewed all the static pages.

## **USE CASE 67: SEARCH FIND-PEOPLE-NAME-INTEREST-SCHOOL**

Use Case Name	Search_Find-people-name-interest-school	Use Case Type	Business Flow
Use case ID	UC_Admsns_067	Priority	Critical
Primary Actors	Student/Mentor		
Other Actors	NA		

### **Description**

User can search the people based on their name, interest, school.

### **Assumption**

User has to be logged in.

### ***Primary Flow:***

**Step 1:** User enters the key to be searched and press the enter key.
